

NOVEMBER 13, 2018

PPLC Meeting

Attendance:

David Guiden

Judith Sullivan

Lourdes Bautista

Sari A. Breslin

Jean Biba-Brown

Ishshah Phillips

Countrywide Curriculum by core curriculum not a lot of involvement yet, should be within the next three years teachers should use supplemental

Science is already involved

Social Studies Ms. Orlando is on the PLC into the world studies

What is the English curriculum and roll out dates?

Civics curriculum is not a full year yet

Biology is not a full year

Math is not a full year

Biology 2020

When will the Dictionaries for ELL students for Academic Approach translation be ordered? Must be prior to January.

Bilingual program is in compliance right now

Some help with Mrs. Senlik

Half-day curriculum development to work on curriculum by course team

People keep asking if every department could have a couple of subs for field trips each year sometimes it's hard cause you can't find someone for the classes

Students need to understand that they need to use the SAT texts that are being used for more skill based than utilizing the data for the test

Cell phones need to be taken away for all tests

Academic Approach should come up with the assessments

This is for the teachers to come up with one passage

There needs to be a better balance with testing, having another test is too much for the students

3.5 hour Academic Approach test will be taken in January

Growing the SAT the students are not taking it seriously

The Academic approach was not taken seriously in all of the departments which was brought up at the ILT meeting
