

Did you know:

**Less
than 6%**
of current Airline
Pilots are women.

We're working to
change this.

In the sky, there should be no glass ceilings.

We are passionate about encouraging more diversity onto the flight deck, helping to build a more inclusive future. We want to help you be part of it.

That's why at L3 we are offering 10 amazing scholarships to aspiring female pilots throughout the US.

Two of the successful candidates will be awarded up to \$25,000 and a further eight will receive up to \$12,500 each towards the costs of the Professional Pilot Program in Sanford, Florida.
