COOKING
(AGES 24-32 MONTHS)
This is a cooking program that stimulates math and language skills by encouraging toddlers to communicate their thoughts, ideas, and feelings. These sessions will provide toddlers with opportunities to express themselves through observation, exploration, and experimentation. Math, vocabulary, and fine motor skills will be introduced while preparing and cooking/baking a variety of child-friendly recipes. Please note: Eggs and dairy products will be used.

EXPLORATION TIME
(AGES 18-24 MONTHS)
This is a program that encourages a love of learning while developing a toddler’s independence, confidence, concentration, and respect for others and the environment in a peaceful setting. Toddlers, along with their caregivers, will be free to explore the environment, including sand and water play, while making their own choices and working/playing at their own pace.

STORYTELLING & CREATIVE ARTS
(AGES 24-32 MONTHS)
This is a storytelling program that captures the attention of toddlers through words, sounds, and visual images. These sessions will provide opportunities for toddlers to enhance their abilities and express themselves through art, crafts, and hands-on exploration. In addition, music and movement activities will be designed to encourage a toddler’s approach to enjoying dance and movement while listening, responding, and using props. Session activities will vary weekly.
