Brea Olinda Unified School District Launches New Mobile App to Keep Community Informed and Involved

BREA, Calif. – The Brea Olinda Unified School District (BOUSD) is excited to begin 2017 with enhanced communications opportunities for parents, students and community members with the launch of its new mobile app. The new mobile app, hosted by School Messenger, directly reflects the district’s identity as a leader in educational growth and innovation.

The BOUSD mobile app provides the community access to the happenings of the district directly through a smartphone or tablet. The app includes relevant school information including announcements, headline news, an updated calendar of events, campus directories, and lunch menus.

Mobile app users have the ability to personalize their experience by subscribing to only the specific campuses they prefer. This ensures that the information most desired is always front and center in the news feed. Users can also enable push notifications to receive up-to-date news and important school and district announcements.

The iOS and Android app is available and free to download in both the AppStore and Google Play by simply searching “Brea Olinda Unified.”

For additional information, please contact the BOUSD Communications Department at 714-990-7511.
