Within the forms, blue font and light blue highlights indicate that an instruction is linked to that specific line. An instructions button has also been provided that links to any general instructions or to the first instruction for a page. The forms have been set to print without "objects" so that the instructions buttons do not print.</p> <p>The cells in the prior year columns on the budget forms contain formulas that will bring forward budget amounts from the FY 2017 budget forms. 2	Federal and State Projects	Separate accountability is required for each federal and state project. Therefore, charter schools should estimate the expenses for each federal or state project in which the school participates. The totals on line 32 should agree with the total columns for federal and state projects on line 37 of page 1. The majority of the monies received must be used for teacher salaries, to hire teachers and to provide for teacher professional development. A portion of the monies received may be used for the expansion and replication of that school site as a quality school model. This amount will be used to determine school compliance with state matching requirements pursuant to CFR Title 7, §210.17(a). If the budget calculation is not revised, ADE will use the calculation on the adopted budget to determine the amounts to allocate to each district and charter school by December 1, 2017. Documentation for all amounts used in the calculation should be retained for audit purposes and any audit findings related to the calculation could result in an adjustment to the funding provided for the teacher salary increase.

This number is a count of all eligible teachers, it is not an FTE. Do not include purchased services personnel or substitute teachers. This should be limited to employees whose salary is appropriately coded in Function 1000—Instruction. This includes teachers that were employed at a different Arizona school district or charter school in FY 2017. Schools should maintain adequate documentation to support the prior year salary amounts included for each eligible teacher, including those that taught at a different Arizona school or district. This salary amount should be consistent with the amounts reported in the AFR, Page 7, Teacher Salaries table for eligible teachers.
2	Additional Teacher Salary Increases, Line 6	Schools will receive the amount of funding needed to pay the employer share of increases in employee-related expenses for the Arizona State Retirement System (ASRS) or other employee retirement systems. Schools should calculate the retirement expenses for ASRS eligible employees using the current years' ASRS contribution rate of 11.5%. Schools that employ eligible teachers in positions that require the school to make an alternative contribution to ASRS should include the cost of that retirement contribution at a rate of 9.36% related to the salary increase for those employees. Schools that employ eligible teachers that participate in other retirement systems should include the actual retirement contribution costs not to exceed the ASRS contribution rate related to the salary increase.
