How does student growth compare to other students?

Median Student Growth Percentile

Each student gets a **student growth percentile** from 1 to 99 for English (4th to 8th grade) and Math (4th to 7th grade) that explains their progress compared to students who had similar test scores in the past. If the student growth percentiles for all students in the school are ordered from smallest to largest, the **median student growth percentile** is the percentile in the middle of that list.
