

The Lillian and Betty
Ratner Montessori School
Curious. Creative. Caring.

REQUIRED PHYSICAL FORMS

In compliance with State-mandated physical examination and immunization requirements all students entering *The Ratner Montessori School* must have a physical examination by a doctor.

To ensure adequate protection and a positive start to the new school year for all our students, the school administration asks that ALL required physical examinations and immunization records be submitted to the school with all other required forms by August 1, prior to the start of school. (Please make a copy of all submitted exam forms to keep for your own records.)

The doctor's form (ODJFS Child Medical Statement) may be picked up from Ratner's front office or enrollment office, or downloaded from the school's website: www.theratnerschool.org/handbook-and-forms/

Due to the high demand for medical appointments with local physicians, it is recommended that you schedule appointments as soon as possible.

Following are the physical examination and immunization guidelines required by school policy and State law:

1. All health examinations must be dated within one year before entering *The Ratner Montessori School*.
2. All health examinations must be dated within one year of entering school when a student transfers from another Ohio school district.
3. Health examinations are required whenever an out-of-state student first enrolls in *The Ratner Montessori School*, regardless of the date of enrollment.
4. *The Ratner Montessori School* recommends all children follow the State of Ohio Vaccination schedule. Immunization records must be submitted to the school (or file an exemption), with the ODJFS Child Medical Statement form.

Failure to comply with the above requirements by August 1st can result in the student's exclusion from school until the required completed health forms are presented to the school.

Please contact the Enrollment Office or Main Office if you have questions.
