This memo is intended to inform parents/guardians of changes in the promotion policy for **fourth** and **eighth** graders.

Any fourth or eighth grade student who does not pass ELA and/or math in regular coursework **and/or** students who score below "basic" on the LEAP 2025 assessment in ELA and/or math must attend the summer remediation program offered by the Cameron Parish School Board to be considered for promotion to the next grade.

Since LEAP 2025 scores are scheduled for release by the LDOE in June, the summer remediation program will take place in July. Please see the schedule below.

**Any student who qualifies for this program will be notified by the school in which s/he attends.**
