SONOMA C.A.C.

Community Advisory Committee (C.A.C)

The CAC's goal is to ensure that all Special Education students succeed in maximizing their potential, receive the best possible education, and have equal access to all services. The CAC collaborates with the local SELPA to ensure that the educational requirements of special education students are met. The CAC serves as a liaison between SELPA, the Sonoma County Office of Education (SCOE), local districts, families, community members, students, and teachers, so that all voices are heard. All meetings are open to parents, teachers, community members, and the public interested in special education
