

# Understanding the OLSAT8 and NNAT2 Student Score Reports

Parents of 3<sup>rd</sup> grade students are notified in the 2<sup>nd</sup> trimester of each year of the initial screening process for GATE. Only 3<sup>rd</sup> grade students are offered OLSAT8 or NNAT2 testing in addition to the CAASPP.

OLSAT8 and NNAT2 scores are calculated using your child's **age percentile rank (Age PR)** within his or her current age group among other students being tested this year.

The eligibility threshold for GATE qualification in San Gabriel USD is 95-99th percentile and 90-99th percentile for students in the targeted subgroups of English Learners, Foster Youth, Homeless, Socioeconomically Disadvantaged, and Children of Military.

## GATE Qualifying Scores: CAASPP

Students may also qualify for GATE with state CAASPP scores. These will be received and reviewed for GATE eligibility by early September of 2018.
