Dear Property Owner or Resident,

This letter is to notify you that San Diego Gas & Electric Company (SDG&E®) or its Contractors will be performing construction work associated with our natural gas pipelines. This work activity has been identified to be within 500 feet of the property line of your establishment. **No action is required by you at this time.**

As part of our system-wide plan to enhance our natural gas pipeline system throughout the communities we serve, we will be replacing a section of one of the older natural gas pipelines as part of our Pipeline Safety Enhancement Plan (PSEP). Construction work is anticipated to start on approximately February 18, 2020 along Midway Drive, from Lincoln Avenue, south to Bear Valley Parkway, ending just south of Hwy 78/San Pasqual Valley Road. The work on those streets will take place between 8:00 a.m. – 4:00 p.m. (restricted work hours may take place in certain areas based on City permit requirements). Construction in front of your school is expected to last several weeks to more than a month, with total project completion expected in October 2020.

This notification is in accordance with the provisions of the Natural Gas Pipeline Safety Act of 2011. If you have any questions regarding this work activity, please contact us at 1-866-382-0886 and reference the above project name.

We encourage anyone who has concerns about the smell of natural gas or suspects a natural gas leak to call SDG&E directly from a safe location at 1-800-411-7343. We are available 24 hours a day, seven days a week.

Sincerely,

Jennifer Ramp  
Communications and Outreach Manager, SDG&E  
(858) 650-6116
