The goal of the placement process is to establish classrooms of well- formed educational, social groups; groups that are balanced by important criteria such as race, gender and educational needs. These groupings will also take into account the personal relations among the children as described to us by teachers and parents as well as any unusual circumstances that might affect student learning. Our goal is to provide the optimum learning environment for individual students and the class as a whole.

1. Please explain what style of teaching/classroom environment works best for your child -

2. Are there special social, emotional or academic needs your child has of which we should be aware?

3. Please provide additional information that you would like considered -

**All Parent Input Forms are due to the school office, no later than April 30, 2019.**
