Strategic Plan**

*(updated August 2019)*

# North Kingstown School District Strategic Plan 2019-2024

## Mission

Our mission is to educate our students to become intellectually active adults, to inspire them to reach individual excellence, and to challenge them to become responsible, contributing members of a global society.

## Vision

All students of the North Kingstown School Department will achieve rigorous learning goals and will continuously improve their academic, social, emotional, creative, and physical growth. In order to do this, we will provide a learning environment that meets the diverse needs of every student. Each student will have access to a high quality, rigorous curriculum through multiple and varied opportunities. With the help and engagement of our staff, families, and community members, our students will attain the skills, strategies, and knowledge necessary to be prepared for their college and career choices and ultimately their roles in a global society. We commit to using our resources to support our priorities: student learning and achievement, effective and innovative instruction, and continuous professional improvement.

# North Kingstown School District Strategic Plan 2019-2024

This strategic plan is based on the seven core functions as presented in the Basic Education Plan (BEP) of the Rhode Island Department of Education (G-12-4.2)

- Lead the Focus on Learning and Achievement. The LEA shall provide on-site direction that continuously guides site-based leadership; identify expectations and accountability for implementation of proven practices; and address barriers to implementation of identified educational goals.
- Recruit, Support, and Retain Highly Effective Staff. The LEA shall recruit, identify, mentor, support, and retain effective staff; build the capacity of staff to meet organizational expectations; and provide job-embedded professional development based on student need.
- Guide the Implementation of Curriculum, Instruction, and Assessment. The LEA shall provide access to rigorous, guaranteed, and viable curricula for all students; ensure differentiated instructional strategies, materials, and assessments; and build systems that provide opportunities for common planning and assessment.
- Use Information for Planning and Accountability. The LEA shall develop and implement proficiency-based comprehensive assessment systems; distribute results of measured school progress and student performance; and maintain responsive and accessible information systems.
- Engage Families and the Community. The LEA shall implement effective family and community communication systems; engage families and the community to promote positive student achievement and behavior; and provide adult and alternative learning opportunities integrated with community needs.
- Foster Safe and Supportive Environments for Students and Staff. The LEA shall address the cultural, physical, social, and emotional needs of all students; ensure safe school facilities and learning environments; and require that every student has at least one adult accountable for his or her learning.
- Ensure Equity and Adequacy of Fiscal and Human Resources. The LEA shall identify and provide requisite resources to meet student needs; allocate fiscal and human resources based on student need and overcome barriers to effective resource allocation at the school level.
