- **Review of LSGT by-laws and regulations-**

Dr. Dawson made sure everyone had a copy of the by-laws in their LSGT notebook. She turned to several pages pointing out important points. She discussed Tift County being a charter system until year 2021 but the process of renewing it is already in effect. She read the Quorum and Voting requirements in the by-laws and she reviewed the roles of the LSGT.

- **Review and discuss GOB CCRPI scores-**

Dr. Dawson included a print out in every member's notebook of G.O. Bailey's CCRPI (College and Career Ready Performance Index) scores from the 2017-2018 school year. The score was an 81.1 overall. Dr. Williams asked about student population. Dr. Dawson commented GOB was right under 500 students total at this point in time. The scores were printed in the Tifton Gazette, but GOB was left out of the list of schools. Dr. Dawson has made Mr. Atwater aware of this. The following were the CCRPI results broken down:

77.2 for mastery

82.7 for student growth or progress

87.5 for at risk learners vs. state average

80.7 for readiness (subgroup performances)

97.50 (5 stars) for school climate

- **Review and Discuss GOB School Improvement Plan-**

Dr. Dawson included the current school improvement plan in all of the members LSGT notebook to review. When the plan is created, data is considered and analyzed to make sure a perfect plan is put in place. Student surveys are also looked at. The members also reviewed the objectives and outcomes from the 2017-2018 school improvement plan.

- **Review and discuss GOB budget for 2018-2019-**

Dr. Dawson also included a print out in the notebook for all of the members for the LSGT proposed budget. One of the proposals for the budget were two innovative practices. One practice would be to have certain 3<sup>rd</sup>, 4<sup>th</sup>, and 5<sup>th</sup> graders come to school for the first three days of spring break to give them an extra "push" right before GMAS testing. Data would be considered and analyzed to see who would be the best candidates for this program. The budget for this innovated practice would include payment for the staff that chose to come on their spring break as well. This plan is in the beginning stages of planning and a lot has to be considered and worked out before this can take place.

Another innovative practice in the planning process as well is to have Southern Regional Technical College come on campus, use their instructors, and technology and have them hold a 10 week class for parents that are English Language Learners or for guardians that need help with literacy. Twelve parents must commit for the program to take place. Ms. Daughtrey, the parent liaison, is in charge of getting parents signed up.

Dr. Dawson mentioned possibly getting a digital sign out front for GOB. This has been in the works for the past year. Mr. Bowen mentioned it would be nice because it would be the first thing people see when they drive up or drive by the school. Dr. Williams thought it would be a good investment and would be very up to date and technology driven.

The proposed budget also included student and staff incentives.

The Governance team voted on the proposed budget for the 2018-2019 school year.
