&

Early Childhood Center

November 22, 2019
Masons are laying up cmu bearing walls in area B. Temporary enclosures have been installed in the classroom window openings.
Exterior storm pipe and catch basins are being installed around the site.
Temporary haul roads are being built for access to work areas.
This is the new dehumidification unit being lifted in place over the high school.
Two Week Look Ahead

- Site storm water pipe installation will be completing this week. Storm pipe will be connected to the building.
- Masonry bearing walls will continue in area B around the court yard.
- Metal roof decking will be placed over the joists.
- Roofing will be completed over area F classrooms. All classroom roofs will be completed.
