ENROLL FOR THE 2020-21 SCHOOL YEAR TODAY

We are committed to a safe reopening of Flint Community Schools, designed to protect the health and well-being of our school community while maintaining a commitment to excellence in academics, transparent communications and a whole child approach to education.

Our FCS Safe Return and Recovery Plan will include face-to-face instruction, distance learning (online) and hybrid, a combination of the two.

Potential Instructional Learning Environments

Brick & Mortar (classroom) - All students attend school

Online Learning (computer) - All students attend online

HYBRID - Combination of face-to-face and distance learning

WE ASKED. YOU ANSWERED.

The Flint Community Schools District Reopening Committee is preparing for a safe reopening of schools—whether in-person or online. FCS parents and guardians completed a survey regarding the 2020-21 school year, and the responses were clear. If we return to school in-person, parents desire strong social distancing, cleaning and disinfecting. If distance learning continues, parents would like to see learning packets available in print form and online. We are committed to a safe return to school that accommodates the desires of parents, students and staff.
 OUR SCHOOLS

Accelerated Learning Academy (Grades 7-12)
Brownell STEM Academy (Grades K-5)
