National School Attendance Awareness Month

September is recognized as National School Attendance Awareness Month. Daily attendance is key to our students' success. Lemon Grove School District teachers, staff, and administrators are committed to creating learning environments that help set our students on a pathway to college and career readiness each and every day.

The start of the year is an excellent time to put in place routines that encourage daily attendance. Set regular times to go to bed, and use an alarm clock to wake up each morning. Start the day on a positive note. Encourage your child to decide what to wear and what to pack in his or her backpack the night before. Review a daily schedule with your child.

Please help ensure your child arrives at school and on time each day. We value their contributions to our school community!
