

Principal's Welcome

September, 2019

Welcome to Sullivan Middle School!

I am excited to be the new Sullivan Middle School Principal. My goal is to support increased academic excellence and to work with all stakeholders to promote a thriving and enjoyable environment of learning for all students.

As a former high school principal, k-12 curriculum and instruction administrator and a former six through twelve teacher, I understand the skills our students need to develop today, to prepare them for tomorrow.

Our school offers many exciting classes and opportunities for advancement. Among them are Advanced Math, Bio-Med, Engineering, Art, Show Choir, ASB, an array of Career and Technical Engineering classes and many others classes. We offer a myriad of sports, including volleyball, cross country, flag football, soccer, basketball, and golf. We also offer clubs that give our students an opportunity to learn leadership skills and build relationships with other students.

At Sullivan, our goal is to build the whole child by giving them opportunities to learn, play and develop socially and intellectually. We have exciting events planned for students and parents this year! We welcome you to be an active part of our school!

Respectfully,

Shaunte' Knox
