March 13, 2020

Greetings MTSD Families and Staff

This morning, superintendents from Addison, Chittenden, Franklin, and Grand Isle County participated in a meeting with Dr. Mark Levine, the Commissioner of Health from the VDH and Vermont's Education Secretary, Dan French.

We were informed that Governor Scott will be holding an important press conference at 5:30 pm today. They believe that the Governor will provide new and specific information for all Vermonters to follow regarding COVID 19. We anticipate that the guidance will include broad-based health recommendations, including the role of schools in mitigating the COVID 19 epidemic, updated travel recommendations, and what individuals can do to keep safe including social distancing.

Once the Governor has provided direction, our district leadership will reconvene and determine next steps for our schools. We will be back in touch with families and staff as quickly as we can.

I appreciate the patience and support of the Milton community as we await more specific direction in responding to the COVID 19 situation in Vermont.

Sincerely,

Amy Rex
Superintendent

Press Release:
Governor Phil Scott and administration officials will provide an update on Vermont's ongoing response to COVID-19 (also referred to as Coronavirus). Following updates on additional steps the state is taking to address the spread of this virus, the Governor, public health officials and members of his cabinet will be available for questions.

Friday: March, 13th @ 5:30 p.m
The press conference will be broadcast live on WCAX and WPTZ, available to stream live on their websites and streamed live on the Governor’s Facebook page.
