- I. Review action items from previous meeting
  - A. 2019-20 Plan approved by District, now being reviewed by State Office
- II. Teacher and Student Success Act (new state bill)
  - A. This will send us about half of the amount of money that we have gotten from Community Council directly to schools to use at their discretion within a framework that the district office creates. District office is working on that right now and Cody has some ideas, but not finalized. Wants to let us know that the money is coming and it is looking like Community Council will also oversee this money instead of creating another committee since the money is also required to have a parent and school based committee to oversee it.
  - B. Possibility that we may need to meet in June. Cody will keep us informed. Cody will come to this meeting with recommendations on what to do with the money and we will adjust from there.
- III. Determine vacancies for upcoming school year
  - A. Each year 2 members should go out and 2 members should go in. In an awkward position at moment having 4 new members, but in order to keep on the correct pattern 2 members need to step down.
  - B. Both Bridgette and Vanessa have volunteered to step down
  - C. Quincey and Jill have both expressed they want to continue on next year to  
Cody.
  - D. Board will stay as is until changes in September/October
- IV. Adjourn
  - A. Vanessa motioned to adjourn. Bridgette second.
