Beavercreek City Schools Board Policy regarding the Selection of Instructional Resources (Policy 2240)

Philosophy

Instructional resources are selected by the school district to implement, enrich, and support the educational program for the student. Within budget constraints, resources must serve both the breadth of the curriculum and the needs and interests of individual students. It is the obligation of the district to provide for a wide range of abilities and to respect the diversity of many differing points of view. The school board endorses the principles of intellectual freedom that are inherent in the First Amendment of the Constitution of the United States and are expressed in the American Library Association's Library Bill of Rights found in the Administrative Guidelines Handbook.

Responsibility for Selection

The elected Board delegates to the Superintendent of Schools the authority and responsibility for selection of all instructional resources and the recommendation of same to Board. Responsibilities for actual selection rests with appropriate professionally trained personnel who will discharge this obligation consistent with the selection criteria and procedures delineated in the administrative procedures manual. Selection procedures will involve representatives of the professional staff directly affected by the selections, and persons qualified by preparation to aid in wise selection.
