“In light of all that has transpired and the fact that there will not be a Spring signing day, we wanted to find a way to still honor some of our Costa student athletes for all of their hard work and bring some positivity to a difficult time. Without question, these students deserve the opportunity to be honored and their hard work and dedication to their academics and craft should be recognized. Please take the time to look through the slides of just a few of our athletes who will continue on in their sport collegiately. It really is a remarkable group of kids”
