

AP Physics 2 Summer Assignment

Mrs. A. Tandon- Rm 65

Email : atandon@cuhsd.org

I am glad that you are continuing to challenge yourself with Physics. This is going to be another fun and exciting year!!

The focus of the summer work is to become familiar with Nuclear Physics. You are expected to complete all work assigned before school starts in August. Be prepared to do a test on the same in the first week of school. You do not need to print out the worksheets. Answers could be written on binder paper and brought on the first day of class in August.

A folder consisting of the notes, worksheets and online lab is on "Schoology".

You may watch Khan Academy videos on Nuclear Physics for additional information.

Go to www.Schoology.com

Create your account with your school email and use the code below to join the class.

5KN2K-NJ29G

Once you are enrolled in the class, you should be able to go into the Nuclear Physics folder to access the assignments.

Email me through School loop if you have any questions.

Have a great Summer and I will see you in fall !

Supplies-

Apart from having a binder for the class, please have a scientific calculator as well. You are strongly recommended to buy a separate notebook to record all your experiments in it.
