

## ACE Custodial RFP – Additional Vendor Questions and Responses

- The square footage you provided states K-1 is 19,364 and main building is 181,899. Is that total square footage or cleanable (excluding maintenance rooms and areas that will not be cleaned)?  
**That is the total square footage. I don't know how many square feet make up utility rooms.**
- What are the school day hours to account for day porter custodians? I know you said you'll require them to arrive by 7 AM; what time do students leave?  
**Students leave at 315. We do have an afterschool program that does not end until 600 pm.**
- What hours would you request the after school crew to come in and do the majority of classroom cleaning and larger work? Accounting for afterschool activities (the routine ones, not basketball season and all) and teachers tutoring or working in their rooms, etc.  
**Between 500 pm to 930 pm.**
- The additional 10 teacher workdays of pre-planning and post-planning: what do you want service to look like on those days? I'm thinking this would be different than the summer break deep cleaning services, if we need to maintain the classrooms for the teachers working and cleaning up.  
**during pre-planning, you would utilize this time to ensure the school is ready. Post planning would be for trash as teachers will clean out their rooms, students will clean out of lockers. It will also be used to begin the deep cleaning summer cycle.**
