How to connect to Baker School District Wireless

*All phones are different – these are just one example

**Android phone:**

Choose the following actions:

- Settings
- Connections
- Wi-Fi
- BSDWebAccess
- If you had previously connected to this network, select forget
- EAP method should be PEAP
- Phase 2 authentication – none
- CA Certificate – Don’t validate
- Identity: Windows username e.g., 21jdoe
- Leave Anonymous Identity blank
- Password: Windows password e.g., JD123456
- Connect
