CALCULATION OF SICK LEAVE

Sick leave will be calculated pursuant to the employee's "month of service," as projected at the beginning of the employment year. If it is projected that the employee will work a majority portion of the hours for which he/she is normally scheduled during any given month, he/she will be entitled

to sick leave for that month. Sick leave benefits will not be credited for those months in which the employee is not projected to work a majority portion of his/her month of service.

Certificated Employees: Sick leave for certificated employees will be calculated by the day, or percentage thereof, as defined in the individual employee's contract. Additional sick leave may be provided to certificated personnel when the negotiated agreement between the district and the local education organization so specifies.

Non-Certificated Employees: Non-certificated employees who are scheduled to work 20 or more hours per week for at least 5 consecutive months will be credited sick leave at a rate calculated proportionate to the days worked.

Certified or Non-Certificated, Full-Time Employees: Non-certificated, full-time employees who are scheduled to work forty (40) hours per week, twelve (12) months per year, will be credited sick leave at the rate of thirteen (13) days per year. Example formula: $250/188=1.33 \times 10=13.3$ or 13 days

Non-certificated, full-time employees: Non-certificated, full-time employees who are scheduled to work forty (40) hours per week, twelve (12) months per year, will be credited sick leave at the rate of one thirteen (13) days per year.

Non-certificated, twelve (12) month employees: Non-certificated, twelve (12) month employees who work less than full-time, but more than twenty (20) hours per week, will be credited sick leave at a rate calculated proportionate to the average hours worked per day.

NOTICE OF CREDITED SICK LEAVE

Each employee will be credited sick leave for the employment year, and notified of the sick leave benefits to which he/she is entitled, at the beginning of the employment year, or first day of employment if employment commences during the employment year.

MEDICAL DOCUMENTATION

To protect the district against malingering and false claim of illness, an employee may be required to provide proof of illness at the discretion of the superintendent or designee. The superintendent or designee may require proof of the employee's ability to return to work **and their ability to perform the required tasks** following an illness.

ACCRUAL OF UNUSED SICK LEAVE

Unused sick leave will accrue from year to year, or as otherwise provided in the negotiated agreement, as long as an employee remains continually in the service of this district.

Any new employee of this district who was employed by another public education entity or state educational agency during the year immediately preceding, or within (3) school years immediately

preceding if termination was due to a reduction in force, will be credited with that individual's accrued sick leave.

In no event will the board compensate an employee for unused sick leave. This policy does not prohibit the board from approving retirement severance pay. Upon retirement of an employee, any accrued unused sick leave shall be reported to the public employee retirement system.
