STEINER
SCHOOL**
OF ANN ARBOR

HIGH SCHOOL
20
1997 - 2017

Annual Report 2017-2018

steinerschool.org

We Are Grateful For Your Gifts! With Your Support We:

Helped **32%**
of our families with
\$604,900
in tuition assistance
enabling them to attend the
Rudolf Steiner School of Ann Arbor.

Helped **17** teachers learn innovative classroom techniques and enliven their curriculum through **professional development courses** and sent **5** faculty and staff to the national Association of Waldorf Schools **conference** on place, race, class and gender in Waldorf Education.

Had a record-breaking year for Annual Fund raising
\$153,829
with 498 donors and 86% of our families participating.

Inspired **117 alumni** to give back to the school they love through the Alumni Day of Giving, raising

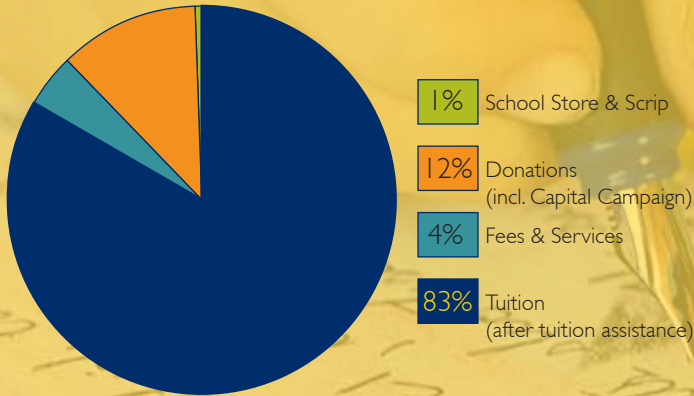

\$25,078
in a single day!

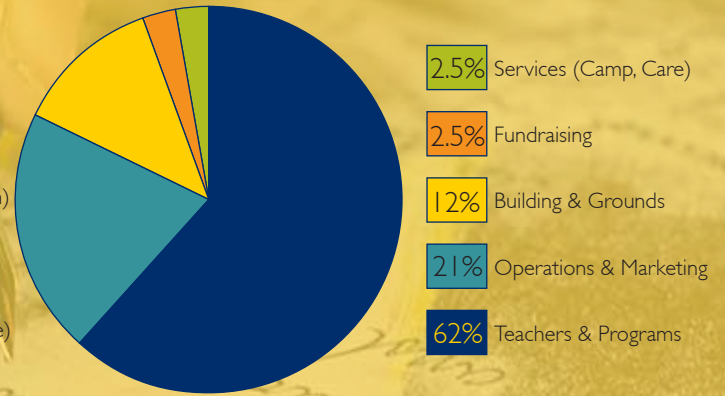

Completed the **vision for the high school campus** by constructing an all-school Athletic Center and seven classrooms including a Life Science Lab, Eurythmy Studio, Math and Language classrooms, Music practice rooms and multi-purpose classrooms. **222** donors contributed **\$1,979,100** along with \$1.2 million low-interest loan, drawing near to our \$3.5 million goal.

Our Budget Reflects a Commitment to Faculty and Programs that Support Our Community

REVENUE

EXPENSES

*"It's inspiring to learn directly from long-time Waldorf teachers and therapeutic educators. I've learned to use **play-based** observation from these professionals and have implemented it in my classroom."*

Anne Birney, Robin Pre-Kindergarten Teacher

"With tuition assistance, my children have been able to attend the Rudolf Steiner School from early childhood to high school. I show my appreciation for this support through my donation to the Annual Fund." **Parent**

*"The training not only helped me to bring this rich curriculum to life for the students, but gave me keen insights into understanding where these children are in their **emotional and social development.**"*

Robert White, Grade 7 Teacher

"RSSAA offers skills and tools so that each student can develop their own blueprint to empower them to make positive, educated decisions that will last a lifetime." **Parent**

*"My students practice taking their observations from experiments and forming them into concepts. Trusting what they see, instead of relying only on facts, **develops critical thinking,***

preparing them to embrace what has yet to be discovered."

Erica Choberka, HS Biology and Math Teacher

OUR VISION FOR THE FUTURE

Build an **endowment and legacy fund** and further support our educational programs.
