

Former CCUSD Natatorium Building Demolition

Demolition of the former CCUSD Natatorium building between the Culver City Middle School and Farragut Middle School campuses will begin the week of July 24, 2017.

While we will work closely with our contractor to minimize impacts throughout the process, we anticipate there will be some additional noise and mess as the process moves forward. In addition, we anticipate some additional construction traffic and some reduced parking availability in that area.

We anticipate completion of the project by August 23.

Please bear with us as we continue to improve our schools. We appreciate your patience and cooperation during this exciting process.

Spring/Summer 2017 Projects

Projects

[El Marino Elementary](#)

El Marino Dolphins get ready for an exciting spring and cool school improvements coming your way this summer for your Measure CC Bond Construction projects. This is an exciting time for students; you will come back to a freshly painted exterior of the campus. We will also be working on some final playground improvements. Most importantly, we are working on installing Air Conditioning throughout the campus. In addition to those projects, we have several district wide initiatives to include new digital marquees that will keep you up to date on all the latest news at school, new/replaced hydration stations, a new Public Address (PA) system and Prop 39 Energy Efficiency Improvements!

[El Rincon Elementary](#)

Attention El Rincon Rockets, be prepared for a busy spring and summer of 2107 of Measure CC Bond Construction projects! We will be adding two new classrooms buildings, we will begin Phase 1 of the Air Conditioning project for the two-story classroom building, add a new Maker Space classroom that will aid in innovative learning, and we will be improving drainage issues and continue playground improvements. In addition to those projects, we have several district wide initiatives to include new digital marquees that will keep you up to date on all the latest news at school, new/replaced hydration stations, a new Public Address (PA) system and Prop 39 Energy Efficiency Improvements!

[Farragut Elementary](#)

Foxes of Farragut Elementary, some fantastic projects are coming your way in the spring and summer of 2017, courtesy of Measure CC Bond Construction. We will be building a new Maker Space classroom to be shared between OCD and Farragut students that will aid in innovative learning! We are going to paint your school so it looks brand new and will finish off some final playground improvements. In addition to those projects, we have several district wide initiatives to include new digital marquees that will keep you up to date on all the latest news at school, new/replaced hydration stations, a new Public Address (PA) system and Prop 39 Energy Efficiency Improvements!

[La Ballona Elementary](#)

Hello La Ballona Lions, the spring and summer of 2017 are an exciting time for the Measure CC Bond Program. We will be installing new Air Conditioning in the two-story building for you! In addition to those projects, we have several district wide initiatives to include new digital marquees that will keep you up to date on all the latest news at school, new/replaced hydration stations, a new Public Address (PA) system and Prop 39 Energy Efficiency Improvements!

[Linwood E. Howe Elementary](#)

Linwood Howe Vikings while you are away this summer, we will begin some exciting projects at your campus! We will be begin installing new Air Conditioning at the campus. We are investigating the use of a new product, ENGR Solar blankets to reduce energy costs! In addition, we will complete some playground improvements as well. In addition to those projects, we have several district wide initiatives to include new digital marquees that will keep you up to date on all the latest news at school, new/replaced hydration stations, a new Public Address (PA) system and Prop 39 Energy Efficiency Improvements!

[Culver City Middle School](#)

Culver City Middle School Panthers will be able to cheer on their team in more comfort as we install new Bleachers for the basketball gym. In addition to those projects, we have several district wide initiatives to include new digital marquees that will keep you up to date on all the

latest news at school, new/replaced hydration stations, a new Public Address (PA) system and Prop 39 Energy Efficiency Improvements! All of this brought to you by the Measure CC Bond.

[Culver City High School](#)

Culver City High School Centaur Pride will be on display when students return from summer break and see all the changes we are working on as part of the Measure CC Bond. You will be able to cheer the Lacrosse and Baseball teams on to victory in the comfort of the new Bleachers and site work. Not to be left out we are addressing some needs at the softball field too! For all you dancers, Classroom 107 will be converted to a new dance studio! The old auto shop is being converted to a new ceramics studio; a popular program will now have more room for our budding artisans. Sports Therapy will be getting new bungalows as well as new equipment to keep the athletes healthy. Robotics will be getting new space designed specifically for them. We are going to resurface the tennis courts and we will begin adding light towers to the Lacrosse field with the plan to be finished over winter break. In addition to those projects, we have several district wide initiatives to include new digital marquees that will keep you up to date on all the latest news at school, new/replaced hydration stations, a new Public Address (PA) system and Prop 39 Energy Efficiency Improvements!
