Reading/Literature

MATH LEARNING CENTER

The district's math curriculum department has planned a new comprehensive program designed for the diverse needs of 6-8 grade math students. Included in the program offerings are new state-of-the-art online individualized instruction components, teacher guided instruction and small group support sessions. Hands-on math tools will be used to strengthen and extend math knowledge. This new approach is intended to enhance math skills for students from basic mathematical concepts to Algebra and Geometry related concepts. Using this more individualized approach, all students will benefit including those needing additional support to those seeking enhanced academic challenges.

ACADEMIC SUCCESS STRATEGIES

Students will learn how to take tests, how to become organized and how to study. Students will identify their personal learning style and utilize the strategies to optimize learning.

READING/LITERATURE

Basic skills are covered, such as how to write a successful answer to a comprehension question, dictionary skills and vocabulary building activities. High level thinking skills are emphasized. Readings will include a novel and various other forms of literature.

Tuition: \$150 per class- Tuition: Out of District: \$165 per class
