

Canyon Middle School Traffic and Parking Lot Protocol

Safety is very important to us, for the safety of our students and staff we have set up the following protocol in order to ease the traffic flow on campus.

During drop off and pick up times traffic can get congested. Please follow the signs and attached map. **Students are only to be dropped off and picked up in the lower lot.** Please do not drop off students in the “red zones” and Staff parking lot. This slows down traffic flow and blocks the fire lanes. Cars are not allowed in the bus loop as this area is for buses and students crossing onto campus.

Visitor parking is located in the lower parking lot. Please park in the marked parking spaces and not in the drop off zones. Drop off/Pick up zones are not for parking or waiting for your student/s. There are two crosswalks in the lower lot for students and visitors to use. Please use caution and obey signage especially when staff are crossing students to and from campus.

The arrows on the map below indicate the traffic flow. We thank you for your support and patience in helping to keep our students and staff safe.
