

## Important Parking Lot Update

We are so excited to be the first middle school in Walnut Valley Unified to have solar panels installed on our campus. If you have had the opportunity to pass by DBHS, you will see the amazing addition to their parking lots. Installation will begin at Suzanne on Tuesday, September 4. Please refer to the attached diagrams that will detail the installation and how our parking lots will be impacted during this project.

During both phases of solar panel installation, drop off and pick up will be done per the usual procedures. Additionally, fencing will set up around the parking spaces. Open lots will be for staff only.

Should you need to come on campus during the installation project, parking will be available in the parking lot on Marcon and Suzanne Rd (not associated with the churches).

The attachments can also be found on our website for your reference.

## Solar Panels

\*Please note that all dates are approximate\*

Phase 1A: approximately 10 days

- Project will begin on 9/4
- Drop off and pick up lanes will remain open during Phase 1
