FOR IMMEDIATE RELEASE

Acero Schools Announces Partnership with KNEEBU

Chicago, IL August 2, 2019: Acero Schools is pleased to announce a new partnership with kNEEBU, an on-demand services app. The partnership, which supports students experiencing house insecurity, has already resulted in kNEEBU donating \$10,000 to uplift these young learners.

kNEEBU's philanthropic contribution is dedicated exclusively to Acero's students in temporary living situations and will cover costs for critical items like uniforms, school supplies, enrichment resources and annual civics trips to historic locations like Springfield, IL, Washington, DC and New York, NY. "We believe that giving back to the community has to be embedded in our culture from day one. By investing in the STLS kids at Acero Schools, kNEEBU is taking the first step in giving back to the community," said kNEEBU CEO, Nishant Tomar. All proceeds from services booked through kNEEBU will go directly toward the \$20,000 annual goal until it is achieved.

Acero Schools serves more than 40 students annually challenged with housing insecurity. "We are deeply grateful for kNEEBU's partnership and generous donations." Helena Stangle, Chief External Affairs Officer said. "This kind of partnership demonstrates a strong commitment to community and enabling all students to have extraordinary and enriching learning experiences."

Acero Schools is an urban, non-profit, public charter school network of 7,500 students primarily serving Chicago's Latinx community. The Acero Schools network includes 12 elementary schools, two high schools and one K-12 school.

kNEEBU recently launched their on-demand services app allowing consumers streamlined access to a variety of services like housekeeping, childcare, pet sitting and home maintenance through the convenience of their smart phone application.
