Homework gives the student a chance to independently test themselves on the topics learned that day in class. The student will be assigned homework about every night. These assignments will be checked for completeness the next day. But it is the student's responsibility to correct their own HW on google classroom. *All assignments must be done in PENCIL with work shown for all steps of each problem* on the lined paper or on a provided worksheet. If there is a worksheet with a puzzle or a code that must be completed also.
