PRESS RELEASE

FROM H. LARRY MOORE, JACKSON COUNTY SUPERINTENDENT OF SCHOOLS

COMPUTERS ARRIVE FOR THE 2019-2020 SCHOOL YEAR

The final shipment of computers ordered for the 2019-2020 school year have been received and will be dispersed to schools in time for the start of school. Approximately 1,400 laptop computers were purchased and dispersed last year, and since June 2019 an additional 1,800 have been purchased using local sales tax dollars along with the digital classroom allocation from the Florida Legislature. The computers purchased last year were primarily assigned to high schools and the computers purchased this year will be distributed to middle and elementary schools.

Thank you to citizens of Jackson County, our State Legislature, and the Jackson County School Board for your support in providing quality up-to-date technology resources for our students and teachers. This is another example of the positive difference the ½-cent sales tax makes in Jackson County public schools. Some school principals have opted to purchase extra laptops, above and beyond those described above.

Thank you to our technology support staff for your work in preparing and distributing these educational resources. We are looking forward to teachers returning on August 5th and students on August 12th.
