New Technology Allows Parents to apply for School Meal Benefits Online

LunchApplication.com allows for secure, quick, anonymous, and paperless applications online

Isle of Wight Co, VA--August 29, 2019: A new technology available to Isle of Wight County Schools allows parents to conveniently apply for free and reduced meal benefits.

LunchApplication.com provides access 24 hours a day for parents to apply for school meal benefits. "Having the application process online provides quick, easy, and secure access for parents; giving qualified families an additional means to take advantage of the national school lunch program," says Joyanne Manning, child nutrition director for Isle of Wight County Schools. This service is made available free of charge by the division. Parents interested in this service can register for an account at LunchApplication.com/register.

Paper applications will be distributed to all students through their school for parents who are unable to access the online site.

LunchApplication.com website was developed by EMS LINQ, Inc., a K-12 administrative software company headquartered in Wilmington, North Carolina. EMS LINQ develops, distributes and supports school accounting and food service management software in schools throughout the United States.
