

## **Updated Grading Period to Determine Eligibility**

On August 19, 2019, during the CUHSD Board Member meeting, there was an approval to change the grading period for extracurricular participation eligibility. Previously, we would use quarter grades to determine this eligibility. With the new format that was recently approved, we will now use progress grades, along with quarter grades to determine their eligibility. The students will continue to only get one probationary period throughout their four years. This new format is put in place to give students another opportunity to become eligible for extracurricular activities.
