DID YOU KNOW? Protect young people from cyberbullying

Cyberbullying can happen at any time, on any online platform. It can take many forms – cruel direct messages, threatening emails, mean texts, shared photos, and more. Victims of cyber-bullying often suffer from anxiety and depression, and their self-esteem can be diminished. They may be reluctant to talk about bullying, so parents need to be on top of all their children’s online activities. Asking questions and getting information about popular apps and sites will help, too. For more information, get a copy of the VIRTUS® article “Cyber-Bullying: Protecting Young People from Technology Dangers” [click here](#).
