Sequence of Coursework

Course Selection/Schedule Changes - The master schedule is based upon student requirements and requests for courses made at the time of registration during spring. Course enrollment requires satisfaction of pre-requisites and the timely request by students to enroll. As a result of changing enrollment and required course listings for state and college requirements/admissions, the availability of priority choices for class schedules cannot be guaranteed. Scheduling conflicts may necessitate a change in the sequencing and/or programming of a student's "first choice" of course selections. Requests to change course schedules may be made during the designated dates and times scheduled by the counseling department in the summer. Changes of course selections may not be made to accommodate a request for a particular faculty instructor or class section. Requests for changes following official registration payment dates and/or designated counseling dates may not be granted due to scheduling constraints. No schedule change requests will be made following the second week of the semester. **Please refer to the Academic section in the Parent-Student Handbook for the process to request changes for course selections.**

Honors/AP/El Camino Course Eligibility – Honors/El Camino courses are offered to students who maintain a total cumulative GPA of at least 3.2, meet the pre-requisite course requirement, and are recommended by the pre-requisite course teacher. AP courses are offered to students who meet the previous stated requirements in addition to meeting the College Board AP Potential recommendation. Students who have any outstanding classes to make-up *may not* enroll in Honors/AP/El Camino coursework. All Honors/AP/El Camino course entrances must have final approval by the Director of Academic Counseling / Vice Principal.
