

VHS MSA 7th Grade JUMP Course

WHAT IS MSA?

The **Medical Science Academy** is a four-year program at Valencia High School that provides career-based classes and hands-on practice to students interested in the medical field. The program is divided into a Sports Medicine and Emergency Medicine career pathway. Our goal is to prepare the Academy students for college and their future careers. Students involved are taught leadership and communication skills as well as work-based skills that they practice on the athletes.

For more information, you can look at our website [HERE](#)

WHAT IS THE JUMP 7 COURSE?

We created the JUMP 7 course for junior high school students in order to give them insight into what the program is about and help prepare them for the next four years in high school. Students will be taught subjects such as Basic First Aid, Nutrition, CPR, and a Biology Lab.
