

English 11 CP and CCR Summer Reading/Class Preparation – 2018-19

Welcome to English 11! During the beginning of your semester, we will study the early history of the English Language and the people who originally inhabited Britain. Part of this will be studying the historical, religious and political realities of a world that began the creation of literature in our language. Our goal is for you to read the packet titled English11SR_Reading in order to gain familiarity with the new culture you will be studying.

Your instructor will review the information when school begins and hold you accountable for the information in the first weeks of the semester. If your class happens to be in the spring, please make sure that you read this directly before the beginning of your course in order to have the information fresh for class discussion. Pay special attention to the following: - Cultural Background - Important elements of literature and history - Tribes - Kings - Invasions - Development of Language - Role of Religion Enjoy our summer and we will see you at the beginning of the year.
