

Attention Golden Hawk Parents: Beginning tomorrow, March 18th, Centennial High School will be closed to all students. If your student has been recently absent, please email individual teachers for information related to the work that has been assigned for students to complete during the school closure. We appreciate your patience as teachers are working diligently to prepare assignments during this closure period. Many teachers utilize Google Classroom, if your child has previously used this for their classes, they should continue to use that platform to access assignments and communicate with teachers.

If you are unable to email your student's teachers, don't have home internet service, or a teacher indicates that there is a packet to be picked up. We have a process in place to assist you.

If you are able to access the internet, please go to [centennial.kernhigh.org](http://centennial.kernhigh.org) and click on the link that will allow you to request work. We will review the information you provide and contact you when your student's work is ready for pick up. If you prefer, we can mail the documents home.

If you are not able to access the internet, please call the school between the hours of 7:30-3:30 on Wednesday and Thursday and we will take your student's information and compile their work. Again we will contact you with a pick up time or give you the option to have the documents mailed.

We appreciate your patience with this process. All schools will have minimal staffing in order to comply with federal and state guidelines and we believe this process will efficiently get information to you while respecting the need to practice social distancing. Rest assured, that barring a scenario that requires us to shelter in place, we will process your request in a timely and efficient manner and get your child the work. You will not need to return any completed packets until after the school re-opens.

All teachers are required to be available to answer questions via email. Again if you do not have email access you are welcome to call the school and we will assist you with getting in contact with your students teachers - Our number is 588-8601.

Stay well and Go Hawks!
