

**SAN LORENZO  
UNIFIED SCHOOL DISTRICT  
ADMINISTRATIVE REGULATIONS**

**Instruction**

AR 6164.41 (a)

**CHILDREN WITH DISABILITIES ENROLLED BY THEIR PARENTS IN PRIVATE SCHOOL**

Definitions

Parentally placed private school children with disabilities means children with disabilities who are voluntarily enrolled by their parents/guardians in a private school or facility within district boundaries, including children who are attending a private school or facility within district boundaries but who reside in another district or state. (34 CFR 300.131)

Private school or facility means a private full-time day school, including a religious school, located within district boundaries, that has filed an affidavit with the California Department of Education pursuant to Education Code 33190 and is registered in the California Private School Directory.

Consultation with Private School Representatives

The Superintendent or designee shall consult with all private school representatives and representatives of parents/guardians of parentally placed private school children with disabilities during the design and development of equitable services for the children.

After the consultation has occurred, the district shall ensure an annual count of the number of parentally placed children with disabilities attending private schools located within the district. This count shall be conducted between October 1 and December 1 each year and shall be used to determine the amount the district must spend on providing equitable services to the children in the subsequent fiscal year. (34 CFR 300.133)

Provision of Services

A child with a disability parentally placed in a private school has no individual right to receive some or all of the special education and related services that he/she would receive if enrolled in public school. Such a child may receive a different amount of services than students with disabilities in public schools. (34 CFR 300.137, 300.138)

The district where the private school is located, not the district where the child resides, conducts individual evaluations and subsequent reevaluations of children for purposes of determining the provision of equitable services.

The district shall evaluate all identified parentally placed private school children with disabilities for purposes of considering them for equitable services. This evaluation shall be conducted in accordance with the timelines and procedures for evaluating public school students with disabilities pursuant to 34 CFR 300.300-300.311.

In order to ensure that each child entitled to special education and related services from the district receives an offer of a free appropriate public education (FAPE), the district where the child resides shall develop an individualized education program (IEP) for each identified child who attends a private school located in the district and who resides in the district.

However, the district shall not develop an IEP if the parent/guardian makes clear his/her intention to keep the child enrolled in private school. In such situations, the district shall obtain written certification confirming the parent/guardian's intention to keep his/her child enrolled in private school, including the fact that he/she is not interested in the development of an IEP or the district's offer of FAPE. If the parent/guardian does not provide confirmation in writing, the district shall obtain oral confirmation of the parent/guardian's intention and confirm the conversation in writing.

The district shall develop and implement an individual services plan (ISP) for each identified private school child with a disability that describes the equitable services that the district will provide, as agreed to by the district and private school representatives during the consultation process. (34 CFR 300.138) The ISP shall be developed, reviewed, and revised consistent with 34 CFR 300.121-300.324

Board adopted: February 3, 2009
