Hawaii Department of Education, Driver Education Program

Dear Parent/Guardian:

Your student may be enrolled in a state-approved Driver Education program, which includes both 38 hours of classroom and 6 hours of in-car behind-the-wheel courses (BTW) with 6 to 12 hours of observation time. The BTW course is given in a state vehicle equipped with a brake pedal on the right front passenger seat for the driver education instructor's use. The vehicle has standard restraint systems, extra rear view mirrors, and other safety devices. Insurance coverage is carried for these vehicles and all who legally use or ride in them.

The instructors of this program, Mrs. Aparicio and Mr. Verble, have had special training for this important program and are certified by both the DOE and Hawaii Department of Transportation.

Our goal in offering this program is to prepare competent, skillful, and responsible young drivers, who will have the right attitude toward safe driving and will, therefore, assist in reducing accidents on our streets and highways. Let us work together to make our community safer for everyone.

It is essential for a student driver to get as much practice time behind the wheel as possible. You play an important role to oversee that practice and help your student benefit most from this program. First and foremost is the example you set for your student. Your son/daughter has been your passenger since childhood and has observed every action you have made. Drive the way you want them to drive. You will receive Records of Driving with us for each of the BTW lessons. These records must be signed and returned to us before each lesson acknowledging that the student has practiced the previously taught methods.

We will demonstrate the most current techniques to safely operate the vehicle and help prevent accidents. However, each student needs more practice behind the wheel that our program can offer. Your cooperation in providing additional driving practice is an absolute must for your student's success.

Best practice is for PARENTS to accompany each student for SIX (6) to TEN (10) hours of practice each week. The State Law requires – that the students receive FIFTY (50) hours (40 hours daylight + 10 hours nighttime) of practice with a licensed, approved adult 21 years of age or older. We recommend that your practice sessions begin after each lesson of the behind the wheel instruction. Upon the fifty hour logged completion, the student is required to turn in a parental notarized statement. When the statement is received along with librarian proof of textbook return, your son/daughter will receive his/her Driver's Education DOT Certificates, which are required for setting up appointments for DMV Driving Test. Please be mindful of six month permit requirement to take DMV test and also make appointment with Mrs. Aparicio for Certificates – only after the school end date.

Let's work together to encourage and guide our young people to be safe, responsible, courteous drivers.

Sincerely,

Driver Education Coordinator

Mrs. Aparicio
