In the Sumer Food Service Program there are federal requirements that outline foods that may be served, portion sizes and nutritional guidelines that must be followed. In addition to this, the Windham Board of Education has created this policy that ensures that the Food Service Department will make reasonable modifications for specific needs regarding food options made available to students.

In most cases we would require an IEP or other forms of documentation outlining a child's needs but due to the nature of Summer Meals being mostly community based and mobile, we will be making reasonable modifications on an individual request basis.
