AAHS SENIORS PARTICIPATE IN 2ND ANNUAL SENIOR WALK

Senior students took the opportunity to say their final farewells to friends, faculty and staff today as they visited both the Jr. High School and their former elementary school.

Starting at the Altoona Area High School auditorium, seniors dressed in their cap and gown and walked to the Jr. High School where they were welcomed by students and faculty who congratulated and cheered their success.

After walking through the Jr. High School, students boarded a bus that returned them to their elementary school where they were again met with cheers, high fives and well wishes.

The senior walk has had impact on students, parents, participating schools and the general public alike. For the younger students, they have a chance to see what the culmination of their schooling will look like. For the graduating senior, it's a chance to reconnect with their former teachers and to reflect on their education journey through the Altoona Area School District. For faculty, it's an opportunity to see the success of former students and to celebrate and reconnect.

A special thank you to the AASD Foundation for funding the transportation for this event.
