Online Classroom Expectations for PVPHS Students

Online class sessions should be treated as a regular class session just as when students were physically on campus. Remember that the Teams virtual classroom is still a classroom; we are now just conducting class differently. All school rules still apply. Maintain RESPECT with speaking, writing, and appearance. This includes how students communicate with teachers, classmates, and other staff. The following are expectations for student behavior and conduct in the Teams virtual classroom and all virtual interactions (email, chat, etc).

- Students are expected to use academic language in all interactions.
- Show up promptly on the scheduled date/time with the appropriate materials needed for the lesson.
- Dress for school as if you were on campus. Students must be fully clothed.
- Keep the same background throughout the entire class meeting. School appropriate backgrounds only.
- If possible, find a quiet place that is free from distractions (i.e. television, pets, siblings).
- Stay on mute. Click the Raise Hand button or raise your hand if you would like to contribute to the discussion or ask a question.
- Teachers can require that students have camera ON at all time.
- No eating, drinking, or chewing gum while in our TEAMS classroom.
- No cell phones while in the TEAMS classroom.
- Use Chat feature appropriately. No personal discussions during class time.
- Due to privacy issues, students may not record class meetings and links to classroom meetings should not be shared with people outside the class.
- It is the student (or parent) responsibility to report tech issues that hinder students from attending class or completing work directly to the teacher as soon possible.

Communication is key. Remember teachers and support staff are here to help students. Students should reach out to teachers or support staff if they need support or have questions.
