

Advanced Placement Lunchtime Information Meetings 2018-2019

If you are considering any Advanced Placement class next year, you should attend a lunch informational meeting to find out from the teacher of the class what is expected. Taking AP courses requires commitment and dedication. Each AP course may take up to an hour or even two per night for homework and test prep at times. Taking multiple AP courses just to receive extra grade points can have an adverse impact on your health and even overall GPA. Please note that once you sign up for an AP class, you may not be able to transfer out of that to a college preparatory class, which could jeopardize graduation. Please plan far ahead for these courses.

Course	Date	Location
AP Biology	Monday - Jan 28	315
AP Government	Monday. - Jan 28	301
AP Physics C	Wednesday - Jan 30	313
