

STUDENT CONDUCT ON BUSES

JICC
(Also EEAEC)

The Seaford Board of Education believes that to facilitate the maintenance of a safe, efficient, and effective student transportation system, it is imperative for students to behave responsibly at school bus stops and while being transported on school buses. Furthermore, students and parents should know that students who ride school buses:

1. are under the jurisdiction of school district authorities (including bus drivers) from the time they arrive at a bus stop to board a bus, while they are riding on the school bus, through the time they exit from the bus;
2. are under the authority of the driver and are expected to comply with his/her reasonable requests at all times;
3. are subject to the Seaford School District Attendance and Disciplinary Guidelines and Procedures K-12; and
4. that students who ride on school buses do so as a privilege – a privilege that can be taken away by school district authorities for cause.
