## IPM statement

It is the goal of Glendora Unified School District to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

Our objective is to reduce the amount of chemical usage as much as possible but maintain control of pest/weed issues by monitoring and inspecting access points, through housekeeping practices by eliminating residue food sources and by practicing effective pest management while utilizing the most effective, least toxic control methods available to us.

## IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
Tommy Portugal, Director M & O	Purchases/applies herbicides, monitors sites
Georgenia Kiggins, Mtnce Office Technician	Posts sites, sends request notices, purchases, contact pest companies
Rod Tilton, Vice Principal Glendora High School	Notifies when site needs attention/posting for weed/rodent control
Dave Carrillo, Lead Grounds	Purchases/applies, monitors, post sites
R. Fruik, S. Kerr, D. Kerr, J. Perrett, Juan Carlos	Herbicide applicators

## Pest management contracting

- Pest management services are contracted to a licensed pest control business.  
Pest Control Business name(s): Positive Pest Solutions, Pest Innovations, One Way Pest Exterminator
- Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

## Pest identification, monitoring and inspection

Pest Identification is done by: Positive Pest Solutions, Pest Innovations, One Way Pest Exterminator  
*(Example: College/University staff, Pest Control Business, etc.)*

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by Pest control company, Mtnce/Custodial staff and results are communicated to the IPM Coordinator.  
*(Example: District staff title, e.g. Maintenance staff)*

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:  
*(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)*

Sticky traps, bait stations for rodents are placed at various schools/sites and in areas around kitchens. They are checked by our pest control company on a monthly, or if necessary, bi-monthly basis. Sticky traps have been placed at various locations and are monitored by the custodial staff at their sites.

## Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:
