Math Proficiency-completed without a calculator and all radicals should be left in simplest form

### Liberal Arts II and Math for College Readiness

Summer work 2018- instructions specify if a calculator may be used or not

### Statistics and beyond

Summer work for all DE math courses will be to complete the Khan Academy SAT/PSAT test prep program. This program can be found by logging on to [www.khanacademy.org](http://www.khanacademy.org) and selecting SAT under the subject drop-down menu in the upper left corner of the screen. Although extra credit cannot be given in DE courses, SAT/PSAT preparation is important to prepare for college entrance in the near future.
